PROFESSIONAL SUMMARY

Detail-oriented **Web Developer** with practical experience building responsive **React applications** and server-side systems using **PHP** and **MySQL**. Strong command of **C** and **C++** fundamentals with solid understanding of **object-oriented programming** and **logical problem solving**. Experienced in implementing authentication workflows, **CRUD operations**, and structured **database design**. Focused on writing clean, maintainable code and delivering functional, user-centered web solutions.

TECHNICAL SKILLS

- **Languages:** C, C++, PHP, Python (Basic), Java (Basic)
 - **Frontend:** React.js, HTML5, CSS3, JavaScript (ES6+), Responsive Design
 - **Backend:** PHP
 - **Database:** MySQL, Firebase Firestore
 - **Authentication:** Firebase Authentication
 - **APIs & Integration:** REST API (Basic Understanding), Firebase Integration
 - **Core Concepts:** Object-Oriented Programming (OOPs), Data Structures , Problem Solving
 - **Tools:** VS Code, Git, GitHub, XAMPP, Firebase Console
-

INTERNSHIPS & TRAINING

Industrial Training – Frontend Development
(Alpha IT Solutions | Duration: 45 Days)

- Developed responsive web applications using **HTML**, **CSS**, **JavaScript**, and **React.js**
- Built reusable **UI components** and implemented routing using **React**
- Designed responsive layouts using **Bootstrap**
- Gained hands-on experience in **frontend architecture** and **debugging techniques**

Online Internship – UI Design
(C-DAC | Duration: 45 Days)

- Applied **UI/UX** design principles to create structured and user-friendly interfaces
 - Designed responsive UI prototypes with focus on usability
 - Improved layout consistency and visual hierarchy across web pages
 - Strengthened understanding of user-centered design concepts
-

PROJECTS

CollabZone – Brand & Influencer Collaboration Platform (Ongoing)

(React.js, Node.js, Express.js, MongoDB)

- Developing a role-based collaboration platform for brands and influencers
- Implementing secure authentication and dashboard-based workflow
- Built campaign creation, browsing, and influencer application system
- Designed RESTful APIs using **Node.js** and **Express**
- Integrated MongoDB for structured storage of users, campaigns, and applications

Task Manager Web Application

(HTML , CSS Java Script , Firebase (Firestore , Authentication))

- Built a task management application with full **CRUD functionality**
- Implemented task creation, update, deletion, and real-time status tracking
- Integrated **Firebase Authentication** for secure user login
- Used **Firestore database** for real-time data storage and synchronization
- Designed responsive UI using HTML , CSS & JavaScript

Weather Application

(React.js, OpenWeather API)

- Built a responsive weather app with real-time API integration
 - Implemented city-based search with dynamic weather data rendering
 - Managed loading states and error handling for improved user experience
-

EDUCATION

Bachelor of Computer Applications (BCA)

Gian Jyoti Institute of Management And Technology Mohali

CGPA:- 8.7 (2023-2026)

Higher Secondary (12th Grade – Commerce)

Jharkhand Academic Council (JAC)

Percentage: 75% Year of Completion: 2023

PREFERRED TOOLS & ENVIRONMENT

- **Development Environment:** Visual Studio Code
- **Version Control:** Git, GitHub
- **Operating System:** Windows

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
